<p>Not Recommended 0.6 hrs on record</p>

<p></p>

<p>Terrible game.</p>

<p></p>

<p></p>

<p></p>

<p>I just bought this, as , I was looking for a game that is exactly thi

s premise. Alas, when I found this game, I bought it , and I was extremely dis

appointed. Just loading up the game took forever, and I kept having to close and

reopen , it. When it finally opened, it took 17 minutes just to do that. Yeah

. Now it's not like I have , a terrible laptop, my laptop is really good a

nd I've never had any issues with such a thing. Then, upon , opening the g

ame, I couldn't look around because the default settings were set to ultra.

For the record, I don't , really have an issue with game devs doing this,

but it leaves a bitter taste in your mouth. I had , to set the quality to very

low and even then it was still so laggy. It was 2 fps at , the most (like, no) Tj T* BT /F

so , it was quite literally just pixels. The game was also very repetitive, s

o even if you have a NASA super-computer , you will get bored of this really q

uickly. I do not suggest this to anyone, no matter how enticing it , looks. It

was terrible and so incredibly frustrating; especially because I kept having to

meddle with the settings and make , the game actually playable (spoiler alert) Tj T* BT

, happen to have amnesia this game would be quite enjoyable, but unfortunately

I see a lot of people having the , same disappointment as I am. I really wish

I could have this refunded, even just half of the money I , spent on this. I&#

39;m unsure if Steam would let that happen, so for now I just suggest you don

9;t get , this game unless you get it free somehow.</p>
